

## In The Name Of Peace

Why are you waging war?  
 I am asking you China,  
 Look at life suffering and lost.  
 Do you see the misery, sadness and anger around?  
 Why are you a bully and an invader  
 To your country's neighbors?  
 Is it for power and domination?  
 A greater China without consideration  
 For humanity and regional harmony?  
 We are the people  
 We deserve a peaceful life  
 We are the people  
 We fight for our rights  
 We are the people  
 We protect our land with all our might!  
 Why are you **waging war?**  
**China, China**  
**The rise and fall is not too far,**  
**For a dictator or criminal of war.**  
 Why are you waging war, China?  
 The rise and fall is not too far.  
 Don't you forget the lesson of war!
